It's official - Challenge Factory is now a Certified B Corp!

This means:

🧬 We've built our commitment to support purpose-driven organizations and underserved populations into our company's DNA, including our letters of incorporation.

📊 We have a new, proven framework to measure the impact we have—not only through our project and client work, but also in our governance and workplace, the people in our communities and supply chain, and on the environment.

🎯 You'll see us sporting new branding and a new website that fully reflect our vision, work, and identity.

🎉 We've joined the B Corp community of nearly 5,000 businesses in 77 countries and 153 industries.

Read our B Corp story on our new website here: https://bit.ly/CF_Bcorp
